Investor Presentation

February 2023

Forward Looking Statements

This presentation contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934.

These statements reflect Natural Alternatives International, Inc.'s (the Company's) current views about future events and financial performance based on certain assumptions. They include the Company's intentions, projections, expectations and beliefs about the Company's future financial and operating results, including management's goals for future operations, industry performance, characteristics and opportunities, effectiveness of distribution channels and customers.

For this purpose, any statements contained in this presentation that are not statements of historical fact may be deemed to be forward-looking statements. These statements speak only as of the date of this presentation and are subject to certain risks and uncertainties that could cause actual results to differ materially. This presentation is qualified by the risks and other information set forth in the Company's Form 10-K filed with the SEC.

These forward-looking statements are made only as of the date hereof, and Natural Alternatives undertakes no obligation to update or revise these forward-looking statements, whether as a result of new information, future events or otherwise.

Regulation G

In addition, in order to assist you with period-over-period comparisons on a consistent and comparable basis, our presentation includes certain non-US GAAP information. This information excludes certain non-cash expenses, certain cash income and expense items related to our foreign currency hedging program and taxes, as well as certain non-recurring income and expense items related to the gain on sale of our Company's former headquarters, and the one-time write-off of accounts receivable and inventory related to a former customer.

This non-US GAAP information may include non-US GAAP financial measures within the meaning of Regulation G. These non-US GAAP measures should not be considered as a substitute for any measure derived in accordance with US GAAP. The non-US GAAP information may also be inconsistent with the manner in which similar measures are derived or used by other companies. Management uses such non-US GAAP information for financial and operational decision-making purposes and as a means to evaluate period-over-period comparisons and in forecasting the Company's business going forward.

Management believes that the presentation of such non-US GAAP information, when considered in conjunction with the most directly comparable US GAAP information, provides additional useful comparative information for investors in their assessment of the underlying performance of the Company's business with regard to these items. The Company has provided reconciliations of such non-US GAAP financial measures to the most directly comparable financial measures prepared in accordance with US GAAP. The reconciliations are included in this presentation.

Financial Performance and Growth Objectives

Historical Revenue and EBITDA

Sales in FY21 increased primarily due to higher sales from a majority of our distribution channels worldwide, including higher sales of immune and wellness products that appears to be driven by consumers taking a more active role in their health and wellness as a result of the COVID-19 pandemic. We also added new products from existing customers and new products from new customer acquisitions.

Investment Thesis

- As of February 2nd, 2023, global capacity utilization of ~60%
 - New high-capacity blender came online January 2022 in our Vista, CA facility increasing our overall product blending capacity in the USA by approximately 30%
 - Acquisition of new Manufacturing and Warehouse Facility in August 2021:
 - To be retrofitted to become a dedicated high-volume powder blending and packaging facility by spring of calendar 2023
 - Facility expected to provide substantially more warehouse, blending, and powder packaging capacity
 - Positioned to take advantage of current opportunities as well as new potential opportunities in the growing market of whole-food-based meal replacement powders as well as other powder product types
- As utilization increases, fixed costs remain relatively flat and profit margins improve
- Solid financial condition and ability to generate strong cash flow will allow us to increase capacity and or seek acquisition opportunities
- As of December 31, 2022, trading at under 4.48x EV/Adjusted EBITDA
